

Partisan Trigger Warranty

Partisan Triggers are made by freedom loving Americans for freedom loving Americans. We stand behind our products and proudly offer a no-fuss 12 month Warranty against any manufacturing defect for you, the original retail purchaser under conditions of normal use and service. While we do not cover the trigger for theft, or loss, or improper installation, or misuse, or alteration, or modification, or tampering, or deliberate damage (whether cosmetic or substantive) or anything else beyond our control, we've got your back for problems with production of the parts, assembly and packaging. We will either repair or replace at our expense, once we have had the opportunity to investigate, inspect and agree that there is a problem on our end of things. And we'll happily work with you even if you mess up on installation, disassembly or assembly to find a mutually acceptable solution. Just understand that if we didn't cause the issue, we reserve the right to do nothing about it. Modifying the trigger in anyway will, obviously, void the Warranty.

For Warranty Attention, please reach out to us at contact@partisantriggers.com with the fullest possible description of the issue.
